1. Nature of operations

AbraPlata Resource Corp. (formerly Angel Bioventures Inc.) (the "Company" or "AbraPlata") was incorporated on August 31, 1993 under the Alberta Business Corporations Act. On September 30, 2015, the Company's incorporation jurisdiction was moved to British Columbia. The Company's registered office is located at Suite 550, 220 Bay Street, Toronto, Ontario, M5J 2W4.

These unaudited condensed interim consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at June 30, 2020, the Company has a working capital of \$1,073,346 (December 31, 2019– \$927,845) and has an accumulated deficit of \$22,056,419. The continued operations of the Company are dependent on its ability to generate future cash flows or obtain additional financing. Management is of the opinion that sufficient working capital will be obtained from external financing to meet the Company's liabilities and commitments as they become due, although there is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These factors indicate the existence of a material uncertainty that may cast significant doubt upon the Company's ability to continue as a going concern. These unaudited condensed interim consolidated financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern.

2. Basis of preparation

Statement of compliance

These unaudited condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with International Accounting Standard ("IAS") 34 'Interim Financial Reporting' ("IAS 34") using accounting policies consistent with IFRS issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). The accounting policies and methods of computation applied by the Company in these unaudited condensed interim consolidated financial statements are the same as those applied in the Company's annual consolidated financial statements for the year ended December 31, 2019 other than below. Any subsequent changes to IFRS that are given effect in the Company's annual consolidated financial statements for the year ending December 31, 2020 could result in restatement of these unaudited condensed interim consolidated financial statements.

These consolidated financial statements were authorized for issue by the Board of Directors on August 26, 2020.

3. Hyperinflation

Due to various qualitative factors and developments with respect to the economic environment in Argentina during the year ended December 31, 2018, including, but not limited to, the acceleration of multiple local inflation indices, the three-year cumulative inflation rate of the local Argentine wholesale price index exceeding 100% in May 2018 and the significant devaluation of the Argentine Peso, Argentina was designated a hyper-inflationary economy as of July 1, 2018 for accounting purposes.

Accordingly, IAS 29, Financial Reporting in Hyper-Inflationary Economies, has been applied to these consolidated financial statements as the Company's Argentine operating subsidiaries (the "Argentine Subsidiaries") use the Argentine Peso as its functional currency. The Company also followed the interpretive guidance for first time adoption of IAS 29 included within IFRIC 7. The consolidated financial statements are based on the historical cost approach in IAS 29.

The application of hyperinflation accounting requires restatement of the Argentine subsidiaries' non-monetary assets and liabilities, shareholders' equity and comprehensive loss items from the transaction date when they were first recognized into the current purchasing power which reflects a price index current at the end of the reporting period before being included in the consolidated financial statements. To measure the impact of inflation on its financial position and results, the Company has elected to use the Wholesale Price Index (Indice de Precios Mayoristas or "IPIIM") for periods up to December 31, 2016, and the Retail Price Index (Indice de Precios al Consumidor or "IPC") thereafter. These price indices have been recommended by the Government Board of the Argentine Federation of Professional Councils of Economic Sciences ("FACPCE").

As the consolidated financial statements of the Company have been previously presented in Canadian dollars, a stable currency, the comparative period amounts do not require restatement. For the year ended December 31, 2018, the Company recognized a gain of \$1.5 million in relation to the impact of hyperinflation within other comprehensive income. This amount is primarily the result of hyperinflation adjustments recognized on nonmonetary assets held by its Argentine subsidiaries as of July 1, 2018, which have been restated from the historic date when they were first recognized to July 1, 2018 (the "Opening Hyperinflation Adjustment"), and then to December 31, 2019. On initial application of IAS 29, there is an accounting policy choice to recognize the Opening Hyperinflation Adjustment directly to opening equity or to other comprehensive loss. The Company has elected to recognize this amount to other comprehensive loss and it is included in the figure noted above.

As at June 30, 2020, the IPC was 322.0 (December 31, 2019- 283.4), which represents an increase of 14% during the period.

4. Change in accounting policy

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods after January 1, 2020. The following new standards have been adopted:

Amendments to IFRS 3 Business Combinations

Amendments to IFRS 3, Business Combinations assist in determining whether a transaction should be accounted for as a business combination or an asset acquisition. It amends the definition of a business to include an input and a substantive process that together significantly contribute to the ability to create goods and services provided to customers, generating investment and other income, and it excludes returns in the form of lower costs and other economic benefits. The Company adopted these amendments on January 1, 2020 and the adoption has no impact on the unaudited condensed interim consolidated financial statements for the three and six months ended June 30, 2020.

5. Financial instruments

(a) Fair value estimation

The fair value of financial instruments are determined by valuation methods depending on hierarchy levels as defined below:

1. Level 1 of the fair value hierarchy includes unadjusted quoted prices in active markets for identical assets or liabilities;
2. Level 2 of the hierarchy includes inputs that are observable for the asset or liability, either directly or indirectly; and
3. Level 3 includes inputs for the asset or liability that are not based on observable market data.

The Company does not have any financial instruments included in Level 1, 2 and 3. The carrying values of financial instruments maturing in the short term approximates their fair values.

(b) Financial risks

The Company may be exposed to risks of varying degrees of significance which could affect its ability to achieve its strategic objectives. The Company manages risks to minimize potential losses. The main objective of the Company's risk management process is to ensure that the risks are properly identified and that the capital base is adequate in relation to those risks. The Company's risk exposure and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations.

The Company is exposed to credit risk with respect to its cash and receivables. The Company's maximum exposure to credit risk is their carrying amounts disclosed in the consolidated statement of financial position. Credit risk associated with cash is minimized by placing these instruments with major Canadian financial institutions with strong investment-grade ratings as determined by a primary ratings agency. Credit risk associated with receivables is minimal as the majority of the balance is owing from Canada Revenue Agency.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due.

At June 30, 2020, the Company had a cash and cash equivalents balance of \$1,811,593 to settle current liabilities of \$1,008,680. All of the Company's financial liabilities other than lease liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

The Company intends to finance future requirements from share issuances, the exercise of options and/or warrants, debt or other sources. There can be no certainty of the Company's ability to raise additional financing through these means.

5. Financial instruments (continued)

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market factors. Market risk comprises three types of risk: price risk, interest rate risk and currency risk.

Price risk

Price risk is the risk that the fair value of future cash flows of the Company's financial instruments will fluctuate because of changes in market prices. The Company is not exposed to price risks.

Interest rate risk

Interest rate risk is the risk that the fair values and future cash flows of the Company will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk to the extent that the cash, if any, maintained at financial institutions is subject to a floating rate of interest. The interest rate risk on cash is not considered significant.

Currency risk

Currency risk is the risk that the fair values or future cash flows of the Company's financial instruments will fluctuate because of changes in foreign currency exchange rates. The Company is exposed to currency risk through financial assets and liabilities denominated in currencies other than the Canadian dollar, the Company's presentation currency. The Company's financial instruments denominated in currencies that are not the Canadian dollar as at June 30, 2020 are as follows:

Cost	Chilean Peso	US\$	Argentina Peso	C\$ equivalent
Cash	35,607,571	45,249	18,785,562	485,105
Accounts payable and accrued liabilities	1,052,911	12,409	23,358,230	472,101

The Company's sensitivity analysis suggests that a 10% depreciation or appreciation of the foreign currencies against the Canadian dollar would have resulted in an approximate \$8,480 decrease or increase in the Company's other comprehensive income or loss.

As at June 30, 2020, US dollar amounts have been translated at a rate of C\$1.3628 per US dollar, Argentine Peso amounts have been translated at C\$0.01941 per Argentine Peso and Chilean Peso amounts have been translated at C\$0.00165 per Chilean Peso.

6. Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the development and exploration of its mineral properties and to maintain a flexible capital structure, which optimizes the costs of capital to an acceptable risk.

The Company depends on external financing to fund its activities and there can be no guarantee that external financing will be available at terms acceptable to the Company. The Company does not believe its current working capital is sufficient to maintain its core operations for the next twelve months, and additional funding will be required by the Company to complete its strategic objectives and continue as a going concern. There is no certainty that additional financing at terms that are acceptable to the Company will be available. The capital structure of the Company currently consists of common shares. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new debt, new shares or warrants.

6. Capital management (continued)

Management reviews its capital management approach on a regular basis. There were no changes in the Company's approach to capital management.

7. Mineral property interests

Through the Company's wholly-owned subsidiaries, the Company controls exploration projects in Argentina classified by the Company into the Diablillos Project, Cerro Amarillo Project and La Coipita Project and in Chile classified into Arcas project. All acquisition costs and option payments related to these exploration projects are capitalized as mineral interests and are incurred in US dollars and translated to Canadian dollars, the presentation currency for the Company.

(a) Diablillos project

(1) On November 1, 2016, the Company closed a Share Purchase Agreement dated August 23, 2016, as amended and restated on March 21, 2017, and further amended on September 11, 2019, with SSRM and Fitzcarraldo Ventures Inc. (the "Share Purchase Agreement") pursuant to which Huayra acquired from SSRM all of the issued and outstanding shares of Pacific Rim Mining Corporation Argentina S.A., ABP Global Inc. (BVI) and ABP Diablillos Inc. (BVI) (together, the "SSRM subsidiaries"). Through the acquisition of the SSRM subsidiaries, the Company acquired certain exploration projects in Salta and Chubut Provinces, Argentina (the "Diablillos Project" and the "Aguas Perdidas Project").

Cash consideration payable to SSRM consists of the following:

1. US\$300,000 on closing; this amount to be increased by an amount equal to the US dollar equivalent of the amount of Argentine Pesos deposited in entity purchased by the Company (paid);
2. US\$300,000 on or before February 15, 2017 (as amended) (paid);
3. US\$500,000 on 180th day after closing (paid);
4. US\$50,000 on or before January 12, 2018 (as amended) (paid);
5. \$ 200,000 to be paid at the closing date of the Arrangement with Aethon (paid);
6. US\$5,000,000 to be paid on the earlier of:
 - o the date on which a Diablillos Feasibility Study in respect of all or any part of the Diablillos Concessions has been obtained;
 - o July 31, 2023; and
 - o 90 days after demand by SSRM for payment if (a) AbraPlata's market capitalization exceeds \$100,000,000 for 20 consecutive trading days (on the primary stock exchange on which such entity's shares are traded) or (b) after November 1, 2020, the spot price of silver (based on the London Bullion Market Association (LBMA) Silver Price as published by the LBMA on its website (or should that quotation cease, another similar quotation acceptable to the parties acting reasonably) (the "Benchmark") exceeds \$25 per ounce for 20 consecutive trading days on the Benchmark;
7. US\$7,000,000 to be paid on the earlier of:
 - o the date on which Commercial Production occurs in respect of all or any part of the Diablillos Concessions; and
 - o July 31, 2025.

7. Mineral property interests (continued)

(a) Diablillos project (continued)

(1) (continued) Equity consideration consists of 11,294,609 Class B common shares of the Company which automatically converted into a number of Huayra Class A Shares that, upon the completion of the RTO, resulted in SSRM holding common shares of the Company representing 19.9% of the Company's then outstanding common shares. The Share Purchase Agreement provides SSRM an anti-dilution right to maintain 19.9% equity interest in the capital of the Company until the Company completes a qualified financing of a minimum of US\$5,000,000. During the year ended December 31, 2018 the Company completed a qualified financing and is no longer obligated to maintain SSRM's free carried equity interest. As consideration for SSRM's agreement to amend the Share Purchase Agreement, the Company issued an additional 24.15 million common shares of the Company plus, payment of \$200,000.

The royalty consideration payable to SSRM consists of a 1% net smelter returns royalty. SSRM is entitled to receive advance royalty payments totaling of US\$250,000 on November 1, 2017 (paid).

These advance royalty payments will be deducted and set off against the first US\$250,000 of net smelter returns royalty payments otherwise payable in respect of the Diablillos Project. As security for the above obligations the Company has pledged to SSRM all the shares the Company acquired in the two entities which hold interest to the Diablillos Project and the Aguas Perdidas Project.

As consideration for SSRM's agreement on September 11, 2019 to amend the Share Purchase Agreement, at the closing date of the Arrangement date with Aethon (additionally to the CAD\$200,000 indicated above) AbraPlata issued to SSRM the number of AbraPlata shares which results in SSRM owning in aggregate 17.65% of AbraPlata's share capital (24,160,385 shares issued).

(2) On August 30, 2017 the Company signed an agreement, which was amended September 6, 2019, to acquire all of the issued and outstanding shares of Minera Cerro Bayo S.A. ("Cerro Bayo"), a privately held Argentine company. Cerro Bayo owns certain mineral rights that, as a result of a long-standing border dispute between two neighboring provinces in northwestern Argentina, overlap and potentially conflict with the Company's mineral rights to its Diablillos Ag-Au project. The acquisition of the potentially conflicting mineral rights through the acquisition of Cerro Bayo means that the Company will retain its title to the Diablillos Ag-Au project regardless of the ultimate outcome of the provincial border dispute.

Cash and equity consideration payable under the agreement is as follows:

1. US\$225,000 upon closing (paid);
2. US\$175,000 on or before February 28, 2018 (paid);
3. US\$15,000 upon signing of the September 6, 2019, amendment (paid);
4. US\$350,000 and 300,000 common shares on or before November 30, 2019 (paid and issued);
5. US\$65,000 on or before April 30, 2020 (paid);
6. US\$65,000 and 200,000 common shares on or before October 31, 2020;
7. US\$65,000 on or before April 30, 2021;
8. US\$65,000 on or before October 31, 2021;
9. US\$65,000 on or before April 30, 2022;
10. US\$65,000 on or before October 31, 2022;
11. US\$1,000,000 on or before July 31, 2023; and
12. US\$1,170,000 on or before July 31, 2025.

(b) Cerro Amarillo project

For the Cerro Amarillo Project, the Company is awaiting the ratification of the appropriate permits to undertake, subject to financing, a stage one drilling campaign. On December 1, 2014, the Company announced that during the congressional deliberations that took place in November 2014, it was determined that any decision regarding the ratification of the drill permit should be delayed pending the completion of an inventory of glaciers in or near the project to be conducted by *Instituto Argentino de Nivología Glaciología y Ciencias Ambientales* ("IANIGLA"), the federal body charged with conducting the inventory under the Protection of Glaciers Law 26.639. IANIGLA has already begun the inventory, which was expected to be completed in 2015.

On July 14, 2016, APA SA, signed an agreement for the right to purchase the Cerro Amarillo project located in the province of Mendoza in Argentina. This agreement is a replacement agreement to the one that was entered into in 2010.

The Company made the following payments:

1. US\$25,000 in October 2016, deferred to May 2017 (paid)
2. and will pay US\$25,000 annually every November, starting in November 2017, until the earlier of the ratification of appropriate permits or the receipt of exploration permits given in accordance with the legislature of the province of Mendoza (the "Notification Date"). The Company will then make a series of installments in total of US\$875,000 over 48-month period from the Notification Date. The due date for November 2018 payment was extended to January 10, 2019 and paid during the year ended December 31, 2019.

An exercise fee of US\$2,500,000 will be due by the end of 60 months period from the Notification Date. The underlying owners are also entitled to a 1% NSR royalty which can be purchased back for US\$3,000,000. Due to uncertainty of the timing for the completion of the glaciers inventory and the ratification of the permits, the Company wrote down the Cerro Amarillo project to \$1 in a prior period.

Due to uncertainty of the timing for the completion of the glaciers inventory and the ratification of the permits, the Company wrote down the Cerro Amarillo project to \$1 during the fifteen months ended December 31, 2017. During the year ended December 31, 2019, management decided to pursue exploration on the property again and accordingly, commenced capitalizing acquisition costs incurred.

(c) La Coipita Project

On January 31, 2020, AbraPlata entered into a letter agreement, through its wholly owned subsidiary, AbraPlata Argentina SA, to acquire a 100% interest in the La Coipita project ("La Coipita") located in San Juan province, Argentina by paying a total of US\$4,265,000 in staged payments over 60 months (US\$65,000 paid) to the optionors ("Project Owners")

Cash consideration payable per the letter agreement were as follows:

1. US\$35,000 upon celebration of the letter agreement (paid)
2. US\$30,000 in February 2020 (paid)
3. US\$100,000 in January 2021
4. US\$200,000 in January 2022
5. US\$400,000 in January 2023
6. US\$1,000,000 in January 2024
7. US\$2,500,000 in January 2025

In the event the project is placed into commercial production, the Project Owners shall be entitled to collect 1.1% of the net smelter return ("NSR"), of which AbraPlata may purchase for US\$3,000,000 during the 60 months after the first staged payment was made, or for US\$5,000,000 thereafter until start-up of construction of the project.

On February 5, 2020, AbraPlata Argentina SA entered into a binding letter agreement with Altius Resources Inc. to sell its right to acquire the 1.1% NSR from the Project Owners. In consideration, Altius will invest in AbraPlata by way of subscription for common shares or share units in its next equity financing a minimum sum of \$125,000 (received).

(d) Arcas Project

On December 19, 2019, the Company completed a plan of arrangement (the "Arrangement") with Aethon, whereby each former Aethon shareholder received 3.75 common shares in the capital of AbraPlata for each Aethon common share held prior to the Arrangement. This transaction has been determined to be an acquisition of assets and the Arcas Project of Aethon was deemed to be acquired on December 19, 2019 by the Company.

On January 23, 2018, Aethon entered into the option agreement with the optionors, as amended February 28, 2018, pursuant to which Aethon has been granted the option to earn a 100% interest in four blocks of exploration-stage mineral concessions with prospective copper and gold targets located in northern Chile, subject to certain underlying royalties.

The consideration for the purchase of the databases and the grant of the option is the issuance of an aggregate of 11,200,000 common shares of Aethon (issued). To exercise the option, Aethon must incur cumulative expenditures of at least \$750,000 on the exploration and development of the properties within 18 months from the closing of the qualifying transaction of which at least \$500,000 must be incurred within 12 months from the closing date. Aethon must also pay an aggregate of \$1,000 to the optionors. Any production from the Properties is subject to an existing 0.98% gross sales royalty in favour of a third party and a new 1.02% gross sales royalty in favour of the Optionors, for a total gross sales royalty of 2.0%.

On April 4, 2019, Aethon announced that it had exercised its option to acquire a 100% interest in the properties.

On September 11, 2019, Aethon entered into an Earn-In with Option to Joint Venture Agreement with Rio Tinto Mining and Exploration Limited / Agencia En Chile, a member of the Rio Tinto Group ("Rio Tinto"), to acquire an interest in the Arcas project. Rio Tinto has the right but not the obligation to earn up to a 75% interest in the Arcas Project by funding project expenditures of up to US\$25 million as follows:

(d) Arcas Project (continued)

1st Option: If Rio Tinto incurs total project expenditures of US\$4 million within 3 years, and makes aggregate cash payments of US\$300,000 during the first two years, it will have the right to acquire a 51% interest in the Arcas project ("Stage 1 earn-in project expenditure") through the acquisition of 51% stock of a new company ("Opco") that will be incorporated. To exercise the option, Rio Tinto shall make the cash payments before the following dates:

1. US\$100,000 on or before the first anniversary date;
2. US\$200,000 on or before the second anniversary date;

2nd Option: If Rio Tinto incurs additional project expenditures of US\$5 million over the subsequent 2 year period, it will have a right to acquire an additional 14% interest in Opco (holder of the Arcas project), resulting in its total interest being 65%; and

3rd Option: If Rio Tinto incurs additional project expenditures of US\$16 million over the subsequent 3 year period, it will have a right to acquire an additional 10% interest in Opco (holder of the Arcas project), resulting in its total interest being 75%;

Rio Tinto has agreed to incur minimum project expenditures of US\$1 million within one year of securing all necessary approvals to conduct drilling activities which is to be part of the Stage 1 earn-in project expenditure.

In the event Rio Tinto withdraws from the Project, it will pay Aethon an amount equaling the cost to maintain the Project concessions for the 12 month period commencing on the date of termination that have not already been paid.

Under the terms of the agreement, Rio Tinto shall have the right to form a Joint Venture ("JV") with the following key terms:

1. The JV (Opco) may be formed with 51% to Rio Tinto and 49% to Aethon upon satisfaction of the 1st Option; 65% to Rio Tinto and 35% to Aethon upon satisfaction of the 2nd Option; or 75% to Rio Tinto and 25% to Aethon upon satisfaction of the 3rd Option.
2. The JV will be managed by Rio Tinto and funded by each participant in accordance with their interest.
3. Aethon may elect not to fund its interest and be diluted down to a 10% interest. If Aethon is diluted below a 10% interest, its interest will convert to a 1% net smelter royalty capped at US\$50 million.
4. Each party will have a right of first refusal should the other party wish to divest its shareholder interest.

c) Stock options

On January 8, 2020, the Company granted 10,400,000 stock options to a number of officers, directors and consultants under the Company's stock option plan. The options have an exercise price of \$0.065 per share. Each option is exercisable for five years from the date of grant to purchase one common share. The options vest over 24 months, with 25% of the options vesting in every six months. The fair value of the stock options was determined to be \$414,431 using the Black-Scholes option pricing model with the following assumptions: 5 years expected life; share price at the grant date of \$0.07; 100% volatility; risk free interest rate of 1.62%; and a dividend yield of 0%.

On August 29, 2019, the Company's shareholder ratified in its annual general meeting its stock option plan. The aggregate number of common shares that may be subject to issuance under the stock option plan (together with any other security-based compensation arrangements of the Company in effect from time to time) may not exceed ten per cent (10%) of the Company's outstanding common shares from time to time. The exercise price of any option granted under the stock option plan cannot be less than the weighted average price of the common shares on the principal stock exchange on which the common shares trade for the five days on which common shares were traded immediately preceding the date of grant. Stock options are exercisable for a period of time determined by the plan administrator not exceeding ten years from the date the option is granted.

On March 1, 2019 the Company granted 1,200,000 stock options exercisable at a price of \$0.065 per share for a period of five years. The stock options vest 25% immediately, 25% after six months, 25% after twelve months and 25% after eighteen months. The fair value of the stock options was determined to be \$50,609 using the Black-Scholes option pricing model with the following assumptions: 5 years expected life; share price at the grant date of \$0.06; 93% volatility; risk free interest rate of 1.79%; and a dividend yield of 0%.

On June 1, 2018, the Company granted 1,500,000 incentive stock options to directors, officers and consultants of the Company. The stock options have an exercise price of \$0.17 per share and are exercisable for a period of five years from the date of grant. The stock options vest 25% immediately, 25% after six months, 25% after twelve months and 25% after eighteen months. The fair value of the stock options of \$200,787 was determined using the Black-Scholes option pricing model with the following assumptions: 5 years expected life; share price at the grant date of \$0.175; 103% volatility; risk free interest rate of 2%; and a dividend yield of 0%.

On March 21, 2018, the Company granted 1,125,000 incentive stock options to directors, officers and consultants of the Company. The stock options have an exercise price of \$0.20 per share and are exercisable for a period of five years from the date of grant. The stock options vest 25% immediately, 25% after six months, 25% after twelve months and 25% after eighteen months. The fair value of the stock options of \$167,969 was determined using the Black-Scholes option pricing model with the following assumptions: 5 years expected life; share price at the grant date of \$0.195; 104% volatility; risk free interest rate of 2%; and a dividend yield of 0%.

Expected volatility was estimated based on similar-sized entities in the industry.

During the three and six months ended June 30, 2020, the company recorded \$69,633 and \$251,897, respectively (three and six months ended June 30, 2019 - \$38,244 and \$108,778, respectively) in share-based expense related to the stock options.
